Message from the Dean: New Provost Arrives at WSU

I was privileged this past spring to serve as Wayne State University’s interim provost and senior vice president for Academic Affairs. At the request of President Irvin D. Reid, I assumed these responsibilities following the departure of former provost Charles Bantz, who left to become chancellor and vice president for Strategic Planning at Indiana University-Purdue University Indianapolis. As dean of the College of Education for many years, I have had plenty of experience working with the provost’s office; however, serving as interim provost certainly gave me a greater appreciation for that role at the university. I appreciate all the support I received during that time, and I am especially grateful to the COE administrative team. They took on additional responsibilities and kept the college functioning smoothly during my service in the provost’s office.

I also had the privilege of serving as a member of the provost search committee. We worked hard identifying potential candidates from across the country, and we ultimately recommended a pool of top prospects to President Reid.

Nancy Barrett, former senior vice president and provost at the University of Alabama (U of A), was selected as WSU’s new provost and senior vice president for Academic Affairs. She’s uniquely qualified for this position because of her tenure at U of A and her previous experience as provost at Western Michigan University (WMU). Barrett, who holds a PhD in economics from Harvard University, is highly regarded for her leadership in innovative curriculum development and her financial acumen. She’s also renowned for strengthening research at WMU and Alabama. Because the challenges facing deans are critical to the academic process at Wayne State, we’re very pleased to have Barrett as our new provost, and we look forward to her leadership.

Please join me in welcoming Nancy Barrett to Wayne State University!

Paula C. Wood
Dean
COE Faculty Member Researching Bullying in Schools

Jina Yoon, assistant professor of Educational Psychology in the Division of Theoretical and Behavioral Foundations, recently completed research on student experiences with bullying and victimization. Yoon is particularly interested in students’ socialization experiences in school, including teacher-student and peer relationships.

One of her key studies examined teacher attitudes and perceptions of bullying among 97 certified elementary teachers, which showed a great deal of variability in how teachers handle bullies. Their level of empathy for the victim varied, depending on the type of bullying taking place. This resulted in varying levels of involvement in a bullying situation. For example, the teachers took social exclusion as a form of bullying less seriously, and they were less sympathetic to the victims, so they were less likely to intervene than in cases of verbal and physical bullying.

Yoon found a wide variation in teacher attitudes toward and perceptions of bullying. This suggests that individual teacher responses to bullying are important to include in investigations of students’ bullying and victimization experiences.

Based on her findings, Yoon believes that teacher preparation and continuing education programs should include discussions about specific short- and long-term consequences for victims and bullies, and also focus on specific skills to address bullying behaviors.

Yoon presented her findings in April 2003 at the biannual meeting of the Society for Research in Child Development. Her research has also been accepted for publication in *Research in Education*.

Award Given for Integrating Technology in the Classroom

The Consortium for Outstanding Achievement in Teaching with Technology (COATT) was created in an effort to set high standards in integrating technology into school curricula. U.S. Sen. Carl Levin (D-MI) firmly believes that Michigan can be a leader in school technology and encouraged COATT’s establishment. COATT is composed of 20 Michigan colleges and universities, including Wayne State University and several key K-12 organizations.

Two years ago the organization established the M-COATT award: Michigan Certificate for Outstanding Achievement in Teaching with Technology. This year’s recipient is COE student Lalla Jones, in recognition of her exemplary use of computer-related technology to enhance student learning.

Jones graduated in December 2002 with a degree in Secondary Education – English. She developed an interest in computers when one of her instructors who recognized her natural ability urged her to develop it. When she began student teaching at the Communication and Media Arts High School in Detroit, Jones was concerned about how to effectively motivate the students to do better in class, so she developed a Website to spark their interest. She was pleasantly surprised when it did just that. (To spark your interest, visit www.msjones220.com/coatt_home.html.)

Jones’ student teaching supervisor encouraged her to submit her project for M-COATT award consideration. Jones said that receiving the M-COATT award validated her teacher preparation efforts. Prior to student teaching, she didn’t believe she was prepared for teaching, but changed her mind after receiving the award. Jones has since been hired as a teacher in the L’Anse Creuse School District.

Jones recently began her master’s program in Instructional Technology. “I love being in the classroom and working with the kids,” she said. “And I also want to continue teaching English, as well as enhance my ability to integrate technology in my teaching.” She’s well on her way to achieving these goals.

Congratulations, Lalla! ■

COE Faculty Receive Promotions and Tenure

The university’s promotion and tenure process brought successful results for the following COE faculty:

Mariane Fahlman, a member of the Health Education faculty in the Division of Kinesiology, Health and Sport Studies since 1997, received tenure and promotion to associate professor. She is active in many professional associations, including the American and Michigan Associations of Health, Physical Education, Recreation and Dance; the American College of Sports Medicine; the American School Health Association; and the American Society of Exercise Physiologists.

She’s had a busy career since coming to WSU, publishing many articles in refereed journals in collaboration with her colleagues and providing significant service to professional associations and public agencies.

Maria Ferreira, a member of the Science Education faculty in the Division of Teacher Education, received tenure and promotion to associate professor. Ferreira, who received her PhD from Indiana University, came to WSU as a lecturer in 1996 and was promoted to assistant professor in 1997. She’s a member of many professional organizations, including the American Educational Research Association, the Association for the Education of Teachers in Science, the Association for Women in Science, and the Michigan Science Teachers Association. She’s also published several research projects and articles since coming to WSU.

Linda Tillman, associate professor in the Educational Leadership and Policy Studies program in the Division of Administrative and Organizational Studies, received tenure. Tillman, who received her PhD from Ohio State University in 1995, came to WSU in 2001. She was previously a tenured associate professor at the University of New Orleans. A member of many professional associations, including the American Educational Research Association, Association for the Study of Higher Education, and the University Council for Educational Administration, Tillman has received and/or been nominated for several awards, including the 2003 American Educational Research Association Early Career Award. In her short time at Wayne State, she’s received significant research funding and published several refereed articles.

KHS faculty member Pamela Kulina also received tenure and promotion to associate professor. Kulina has since left WSU to join the faculty at Arizona State University. ■
2003-2004 COE Scholarships, Recipients and Donors

Following is a list of the scholarships for the 2003-2004 academic year presented to College of Education students at an awards ceremony August 7, 2003. Included are the names of donors who made these scholarships possible, or the names of those for whom the scholarship is named. Without these generous contributions the college could not continue providing financial assistance for deserving students. We thank all those who support our scholarship efforts, and extend congratulations to all of our scholarship recipients!

COE Student Receives Student Teacher of the Year Award

Melanie Mazzola, COE teacher education student, was presented with the Student Teacher of the Year award by the Michigan Association of Teacher Educators (MATE) May 19 at the Marriott Hotel in Ypsilanti. Mazzola completed her master of arts in teaching (MAT) degree after student teaching in winter 2003 at Troy’s Hill Elementary School. Her cooperating teacher was Susan Blugerman, and her college supervisor was Sheri Michaels. Mazzola has accepted a position with the Edison Schools.

Candidates for the award must submit a lesson plan and videotape of the lesson. A final panel of judges from MATE’s executive board selects winners after many rounds of blind review by teacher educators around the state. Winners are judged on the basis of planning and preparation, knowledge and presentation of subject matter, management of instruction, interaction and communication with students, and professional image and presentation.

The college is proud of Melanie Mazzola and Carrie BuHé, another MAT student who received an honorable mention award. Congratulations, Melanie and Carrie!

COE Faculty Member Joins Editorial Board

Jacqueline Tilles, TED associate professor of Reading, Language and Literature, has joined The Educator editorial board. A longtime member of the college faculty, Tilles is highly regarded by her colleagues and students. COE graduates often say that her classes are among the highlights of their education at WSU and that they rely on her teachings almost daily in their own classrooms. We’re grateful for Tilles’ willingness to share her keen insight, and we welcome her input in the editorial process. You can reach her at aal760@wayne.edu.

U.S. Coast Guard Commends COE Employee

Kevin Carroll, a technician in the Education Technology Center (ETC) and a member of the U.S. Coast Guard Reserve, recently received a Letter of Commendation from the Acting Commanding Officer of the Marine Safety Office (MSO) in Detroit. While serving in that office from March to July 2003 as Detroit’s First Maritime Domain Awareness (MDA) Watchstander, Carroll created and implemented the procedures and format for the Port of Detroit’s Port Operations Summary. This included integrating marine information such as vessel movements with Coast Guard operations, identifying more efficient use of patrol resources, and development of data collection into a user-friendly format.

In his commendation, Lt. Cmdr. S.K. Moon stated that Carroll “became a vital link in the joint operations of the MSO and Group Detroit” and showed a “strong commitment to engage the public in Port Security efforts ... by procuring and distributing materials for the RIVER WATCH Homeland Security Program.”

Carroll was commended for “outstanding performance of duty” and was authorized to wear the Commandant’s Letter of Commendation Ribbon Bar. Give him a salute of thanks next time you pass through the Education Technology Center!

Portfolio Reviewers Needed

As we’ve mentioned in previous issues of The Educator, a culminating and important activity for teacher education students prior to graduation is Portfolio Day. The next Portfolio Day will be held December 11, 2003. Students graduating this year will present their portfolios to a panel composed of COE faculty members and others. Once again, we are seeking reviewers for this activity from outside the college.

If you’re a school administrator or COE alumnus interested in assisting on Portfolio Day, please contact Hal Dittenber at (313) 577-0909 or hal.dittenber@wayne.edu. If you can’t help out in December, the spring review is April 27, 2004.
Edwards Receives WSU Career Development Chair Award

Last April, Thomas Edwards, associate professor of Mathematics Education, received a WSU Career Development Chair Award. This prestigious honor provides financial support to recently tenured faculty members, helping them develop and continue their research agenda at a critical time in their careers. Funding is provided by generous grants from the Wayne State Fund. Edwards came to WSU in 1994 as an assistant professor and received tenure and promotion to associate professor in 2000. He has published numerous articles and received nearly $2 million in grant funding since coming to the university. He plans to use the award to support his continued collaboration with Matthew Rosenshine, Penn State University professor emeritus. They’re planning to publish their groundbreaking work in mathematics education in book form.

Edwards is also collaborating with Professor Kenneth Chelst of WSU’s College of Engineering and the Institute for Operations Research and Management Sciences (INFORMS). They’re completing work on Mathematics of Decision Making in Industry and Government, which offers ten sets of modules of supplementary instructional materials for high school mathematics. The book is scheduled for publication in April 2004. Edwards is one of only seven WSU faculty members to be honored with a Career Development Chair Award in 2003. Congratulations to Professor Edwards on receiving this award!

25th Annual Special Olympics held at Matthaei Physical Education Center

On behalf of the College of Education Gerald Oglan, COE associate professor, welcomed more than 1,000 participants to WSU’s Warrior Stadium for the 25th annual Special Olympics on May 16, 2003. The Detroit Public Schools’ Special Olympics has been held at Wayne State since its inception 25 years ago.

Oglan extended thanks to the students in Wayne State’s Physician Assistant Studies program of the Eugene Applebaum College of Pharmacy and Health Sciences, who provided each athlete with a free health screening so they could participate in the event. He also extended best wishes and congratulations to DPS CEO Kenneth Burnley on the 25th anniversary of the Detroit Public Schools’ annual Special Olympics.

Art Education Students Display Creative Work

COE Art Education students proudly displayed their creative efforts, ranging from pottery to oil painting, at a student exhibit May 27 through June 20 in WSU’s Community Arts Gallery. The exhibit is an annual event that attracts former Art Education students and faculty back to campus. An opening reception was held June 5.

Funds from the sale of artwork left to the college by former students were earmarked to benefit the Art Education student organization. Students hope that the popular artwork sale will become a regular feature at future exhibits, as these funds help them achieve some of their goals.

Graduation with Distinction

A total of 42 COE students graduated with honors in the winter 2003 semester:

• 17 cum laude (3.70 honor point average)
• 21 magna cum laude (3.84 honor point average)
• Four summa cum laude (3.94 honor point average)

A total of 176 students completed a bachelor of arts or bachelor of science in education degree. See the entire list at www.coe.wayne.edu/news. Congratulations to these distinguished graduates!

Norman Named Professor Emeritus

In December 2002, John Norman retired as an associate professor of Science Education. Now he’s been named professor emeritus at WSU.

The professor emeritus title is awarded after retirement based on a recommendation from the faculty member’s department and approval from the provost. This prestigious status provides a few extra perks for the retired faculty members, but more importantly, it recognizes them for their distinguished career at the university. Norman has been held in high esteem by his colleagues because of his many contributions to the college and university, as well as to the science education professional community over his 30-year WSU career. Congratulations to Professor Norman on this well-earned designation and honor.
SPOTLIGHT ON THE

College Development

BY JOANNE OSWER, COE DIRECTOR OF DEVELOPMENT

The following is an update on some of the College of Education’s important fund-raising efforts: the establishment of endowed chairs, professorships and scholarships.

Endowments are important to the college and the university because they’re permanent funds, providing perpetual income for the institution for use in accordance with the donor’s wishes. An endowed chair or professorship is the permanent funding of a faculty position, which enables an institution to recruit or retain outstanding educators and scholars. It also ensures consistent leadership in an academic discipline for an extended period of time.

Such endowments allow a college to enrich the academic environment. They also serve as magnets that attract other outstanding educators and students to the institution, because an endowed professorship or chair is the most prestigious honor a university can bestow upon a faculty member. An endowed chair or professorship scholarship provides financial support to exceptional students as they pursue their academic and career goals, and in the case of COE students, it helps them make a difference in young people’s lives.

Here are some current endowments in the College of Education:

The Leonard Kaplan Endowed Professorship

Last year the COE launched a campaign to establish an endowed professorship in the name of professor Leonard Kaplan, a member of the Curriculum and Instruction program in the Division of Teacher Education. This endowment offers Kaplan’s many students and friends an opportunity to honor his years of dedicated service to teaching and research.

Kaplan is one of the country’s outstanding educators. He has received many awards over the years, including the U.S. Distinguished Teacher Educator Award and the Distinguished Service Award from the Michigan Association of Teacher Educators. In addition to being a devoted teacher and mentor, Kaplan has a long history of service to the field of education. He has served as president of the Association of Teacher Educators and chair of the First National Congress on Teacher Education. He has also authored eight books (three as co-author) and published numerous book chapters and journal articles.

The Jane Betsey Welling Endowed Chair in Art Education

You might think someone who retired from WSU would be in the distant memory, but Jane Betsey Welling’s legacy is very much alive. As founder of WSU’s Art Education program, Welling developed and nurtured a program that became a national model. She believed the best way to reach children was through teachers, and the best way to reach teachers was through a teacher education program.

She built a curriculum that challenged students to excel, and she felt that art should be integrated into all subjects — not isolated into one classroom hour. With remarkable foresight, she advocated awareness of design in the environment and everyday life, and she introduced contemporary art and diverse cultures to tens of thousands of students long before it became commonplace. But more than anything, Jane Betsey Welling’s students loved and respected her for her energy, devotion and encouragement. It’s impossible to know how many WSU students, teachers and children have been touched and changed by Jane Betsey Welling. But we do know that the heartfelt stories and memories are endless.

The Jane Betsey Welling Endowed Chair in Art Education is being created to honor a scholar, educator, caring mentor, and friend of COE graduates everywhere.

College Research

BY STEVEN ILMER, ASSOCIATE DEAN FOR RESEARCH

• The COE dean’s office will soon have a new vehicle in which to showcase the external funding and research accomplishments of the COE faculty—a grants and publications Website. Now in the review phase, the Website will offer abstracts to Web surfers that highlight the research and project-related contributions to the field of education by the college’s faculty. Live links to the authors and principal investigators are intended to encourage communications between our faculty and others interested in their specific areas of research. The site will be developed with the guidance of a Web development and design team, with a wide audience of community partners, prospective funding agencies, donors, and others. Additionally, the site will allow the timely posting of faculty scholarly and research accomplishments. Watch for this Website coming soon on the college’s home page: www.coe.wayne.edu.

• Grant funding for the college in 2002-03 totaled $3.8 million. We look forward to another very successful grant funding year in 2003-2004.

Division of Theoretical and Behavioral Foundations (TBF)

BY JOANNE HOLBERT, ASSISTANT DEAN

• Port Huron’s Blue Water Center for Independent Living, an organization that provides referrals and counseling for clients with disabilities, is establishing a satellite program in the College of Education. This program will provide services to rehabilitation clients and provide a training and observation site for students in the master’s program in Rehabilitation Counseling. The center will provide an opportunity for students to become part of TBF’s Rehabilitation Counseling program to do internships, as well as have workshops and training opportunities here in the college.

• Shlomo Savulesky, professor of Educational Evaluation and Research, is completing the third issue of a new publication, The Journal of Modern Applied Statistical Methods, which is available in hard copy and online. The journal is published twice yearly. Researchers, students and program evaluators will find the journal of great interest.

The Carole Hamilton Endowed Scholarship Fund

Carole Hamilton, director of the College of Education’s Early Childhood Center until her retirement earlier this year, was dedicated to caring for and nurturing young children. She worked for the center for more than 20 years. In 1993, Annie Pittman Pitman (no relation) began bringing her four children and some of her friends’ children to the Early Childhood Center. Pitman was so impressed by Carole Hamilton and the quality of the program that she decided to honor Hamilton by establishing an endowed scholarship in her name. Although Pittman lived a frugal life, she recognized how important it is to provide young children with a high-quality early childhood education. When her financial situation improved, she decided that establishing a scholarship would help many COE students achieve their academic goals and ultimately benefit many children. The Carole Hamilton Endowed Scholarship is thus earmarked for African-American students with a minor in Early Childhood Education and an interest in urban education. By establishing this scholarship in Hamilton’s honor, Pittman ensures that the best and brightest students complete their studies and become the kind of educator that so impressed her.
Division of Kinesiology, Health and Sport Studies (KHS)

BY SARAH ERBAUGH, ASSISTANT DEAN

• The Volunteers, Administrators and Coaches (VAC) program, now in its fourth year, continues to make great progress. Many workshops have been held over the past year. The third annual Careers in Sports/Youth Sports Conference, held for two days in May, was a huge success.
• Following the division’s Periodic Review/Program Evaluation process, programs in Physical Education and Health received “full approval” and met “all standards and requirements” from the Michigan State Board of Education.
• The division faculty continues to be heavily engaged in research and scholarship. KHS faculty members had more than 38 journal articles published or in press during 2002-2003.
• The Detroit After-School All-Stars (formerly the Detroit Inner-City Games) has a new national chairman in Arnold Schwarzenegger, who visited Detroit March 14. Their day-long activity began with a Breakfast of Champions event at the Detroit Opera House, raising $163,000 for after-school programs in Detroit Public Schools.
• Nate McCaughtry, assistant professor of Kinesiology, has a new addition to his family: Steffen Karl McCaughtry, who was born Aug. 30. Please join us in congratulating Nate and his wife, Tammy!

Education Technology Center (ETC)

BY ETC DIRECTOR MARY WAKER

• The fall 2003 semester started with a bang! The College of Education received over $100,000 in university Omnibus funds to upgrade our Macintosh computer lab and add other new instructional technologies. This upgrade includes 50 new Apple iMacs with 21st century digital tools that allow students to create sophisticated multimedia projects. Other new equipment includes digital cameras, Palm PDA’s, ImagiWorks scientific probes that interface with PDAs and computers, and AlphaSmart Dana equipment. These new digital tools give our students the opportunity to gain valuable experience integrating technology in the classroom.
• Students interested in the Michigan Certificate for Outstanding Achievement in Teaching with Technology (MCODATT) award should visit www.coatt.org or talk with professors Gary Smith (aa4448@wayne.edu), Bob Pettapiece (pettapiece@wayne.edu) or Mary Waker (m.waker@wayne.edu). Congratulations to Lalla Jones, a recent COE graduate, who received a 2003 MCODATT award. (See her story on Page 2.)
• Apple Computer is now offering COE faculty, staff and students laptop computers at discounted university pricing. Students needing financial assistance may want to consider the Apple Instant Loan for Educators. For more information, go to www.coe.wayne.edu/announce.

Division of Teacher Education (TED)

BY SHARON ELLIOTT, ASSISTANT DEAN

• One of the goals of the Limited License to Instruct (LLI) program is to fill 600 teaching positions in Detroit Public Schools (DPS). To date, 500 students are completing the LLI program and moving successfully into DPS classrooms.
• The number of students entering the Master of Arts in Teaching (MAT) program, which provides a master’s degree and teaching certificate in various fields, is now almost the same as the number who enter the Teacher Education program at the undergraduate level: 457 MAT and 467 undergraduate students. This trend suggests a significant increase in the number of people with bachelor’s degrees who have decided to make career changes and become teachers.
• Student teacher enrollment has increased each term for the past several years, with a high this fall of 436.
• Several Teacher Education faculty members, students and graduates received special honors this past year. See their stories elsewhere in this newsletter.
• The college is participating in the Teach for America program, which is similar to the Peace Corps and requires participants to make at least a two-year commitment to teach in urban areas. This year, 21 students from all over the country are enrolled in the COE’s teacher certification program. They’ve been working in Detroit for the past year and are committed to teach for DPS after they complete the program.

Calendar

Saturday, 11/8 or 12/6/03
KHS First Aid and CPR Workshops, 9-3 p.m.

11/20/03, & 1/22/04
University Team for Whole Schooling Monthly Forums

Wed., 12/10/03 – Master’s Student Orientation

Thurs., 12/11/03 – TED Portfolio Review Day

Thurs., 12/11/03 – University Commencement

Mon., 1/12/04 – COE Scholarship Application Deadline

Wed.-Fri., 2/25, 26, 27/04
COE doctoral qualifying exams for 2004 winter term

Thurs. & Fri., 3/4-5/04
Junior Science and Humanities Symposium (JSHS)

Sat., 3/27/04
COE Alumni Annual Awards and Recess Night

Thurs., 4/22/04
COE Alumni Education Trends Seminar

Thurs., 5/20/04
COE Alumni Gold and Silver Anniversary Reception

Tues., 8/3/04 – COE Scholarship Program

Wed.-Fri., 10/20, 21, 22/04
COE doctoral qualifying exams for 2004 fall term (tentative)

View the COE calendar online at www.coe.wayne.edu/coecalendar.htm or the university’s academic calendar at: http://sdl.wayne.edu/registrar/academiccalendar

Division of Administrative and Organizational Studies (AOS)

BY JOANNE HOLBERT, ASSISTANT DEAN

• The Educational Leadership program continues to develop program locations throughout the metro Detroit area for master’s and education specialist students. These programs are housed in university extension centers, including the Wayne County Comprehensive Center and the Oakland Center in Farmington Hills, as well as in many school districts.
• Al Edelson retired from the Instructional Technology (IT) program area this summer. He had served as editor of the program’s newsletter and was a longtime member of the IT faculty.
First and second-year masters of education students in School Psychology are getting a head start on their professional lives. Cheryl Somers, assistant professor in the college's Educational Psychology program, facilitates student involvement in the Michigan Association of School Psychologists (MASP). "University trainers from the six Michigan school psychology programs hold meetings coinciding with MASP's twice-annual meetings," said Somers. "The trainers meet to discuss legal, policy and training issues. It occurred to us that it would be good for the students to parallel our actions while they are still in school."

Each year a group of WSU students volunteer to be MASP student representatives. The faculty and students meet regularly with peers from state universities offering school psychology graduate degrees — Andrews University, Central Michigan University, Michigan State University, University of Detroit Mercy and Wayne State University — along with members of MASP. The students attend MASP board and subcommittee meetings.

Whitney Vollmar, recent graduate and former student representative, enjoyed the experience. "As student representatives to MASP, our roles were not defined, so we had the advantage of creating them as we went along," she said.

The group's primary objectives are to stress the importance of belonging to a professional organization and to inform others of the branch of psychology called school psychology.

Student representatives inform undergraduate education and psychology students of the opportunities in school psychology and reach out to minority groups to encourage more diversity in the field. The reps are also working with MASP leaders to create a research grant award for MASP student members. They collaborate with students at the other universities in many of these efforts. "Prior to our participation, student involvement had waxed and waned throughout the years," said Michele Jobaun, a former student representative and another recent graduate of the Educational Psychology program. "So we really wanted to make students aware of the importance of belonging to a professional organization."

"The students learn current trends, possible threats to the profession, and how to petition for their needs," said Somers. "It has been good exposure for them and good visibility for WSU College of Education."

Other COE graduates who have served as MASP representatives include Karen Babel, Elizabeth Cummings, Misty O'Neal, Andrea Viazanko, Amy Sherman, and Conry Hutchison.

Somers and the most recent MASP representatives have been collaborating with State Sen. Nancy Casisi. They are providing research documentation for a bill the senator will introduce to the legislature regarding parental involvement and children's academic, interpersonal/behavioral and emotional outcomes. The representatives include Jill Brimm, Cheree Gibson, Aja Temple, Stacey Thompson and LeaAnn Wiltzke.

They will present this supporting documentation at the House and Senate Education Committee hearings on the bill. These student representatives and the next group of representatives will combine to help provide documentation for an additional bill to be introduced in winter 2004 on the kindergarten start date.

In addition to her education program at Wayne State to earn a certificate as a special education teacher of children with mental impairment, Amy Thiede has also been busy playing softball at WSU, so much so that she was chosen to participate on the U.S. international softball team. The team traveled to Europe this summer to represent the U.S. in the Prague Softball League. They played teams from many European countries and took fourth place.

Thiede, who will graduate next year, was a pitcher for the WSU softball team from 1999 to 2003. Now that she is a senior, she is no longer eligible to play. She said, "I'm looking forward to continuing my education and then, hopefully, getting a head coaching job for softball to continue my love of the game."

Professors Ruth Ellsworth, who came to WSU in 1949 as an assistant professor and retired as a full professor in 1977, died on July 14, 2003, at age 94. For many years as a professor of Social Studies Education in the College of Education and in the many years following her retirement, Ellsworth was an important voice for children's welfare. She was also held in high esteem for her work with UNICEF over the years.

**In Memoriam**

*We wish to remember with fondness and admiration the following retired College of Education faculty who have recently passed away:*

Professor J. Frank Campbell came to WSU in 1951 as an assistant professor in the Guidance and Educational Psychology program and served as director of off-campus programs. He was promoted to associate professor in 1953 and full professor in 1958, and also served as an associate dean from 1965-70. Following his associate deanship, he returned to his professorship in the college's Department of Clinical and Educational Psychology until his retirement in 1982. In 1998, Campbell established a student loan fund in the college. Following his death earlier this year his son converted this to an endowed scholarship in his parents' names: The Dorothy and J. Frank Campbell Endowed Scholarship Fund.

She was also held in high esteem for her work with UNICEF over the years.

**Education Trends Seminar Theme is “YES: Yardstick for Excellent Schools”**

The College of Education Alumni Association presented its annual Education Trends Seminar at the Alumni House April 10, 2003. The seminar's theme was: "YES — Yardstick for Excellent Schools — Implementation, Implications and Impact."

A special panel represented teacher preparation colleges, the Michigan Department of Education, the State Board of Education, and school districts, teachers and students. Notable members included COE dean Paula Wood; Kathleen Strauss, member of the Michigan State Board of Education; and Vern Davis, executive director of Accountability and School Improvement Planning for Detroit Public Schools.

Barbara Daniels-Espey, COE Alumni Association Executive Board member, served as seminar chairperson. The 2004 Education Trends Seminar will be held April 22.

**Teacher Education Student Chosen for International Softball Team**

Amy Thiede to continue my love of the game. She was also held in high esteem for her work with UNICEF over the years.

Dear Students:

As a student at WSU, a wide variety of services and opportunities are available to you. Our primary mission in the COE Division of Academic Services is to provide leadership, service and networking among students, faculty, staff and the university. Our goal is to help students find a successful path toward certification, graduation and employment. We are the college’s clearinghouse of information on college and university policies and procedures, as well as student resources and services.

**DID YOU KNOW?**

- The College of Education is the third largest college at Wayne State University.
- The Division of Academic Services processes all COE applications for admission, graduation and certification.
- Academic Services must have an approved plan of work to conduct a degree audit.
- Placement services are available through Academic Services for those seeking teaching positions. The first step is to establish a credential file. At the beginning of your student teaching contact Sonya Davis at (313) 577-1635 or a0044@wayne.edu to obtain a “credential kit.”

We are here to serve you, and we want to know how we’re doing. Please complete a comment card in Room 469 or 489 of the Education Building. Your feedback gives us an opportunity to evaluate and improve our services.

Janice W. Green
Assistant Dean
Division of Academic Services

### Counseling and Psychological Services Available to WSU Students

WSU’s Division of Student Development and Campus Life, through its Office of Counseling and Psychological Services (CAPS), offers free and confidential assistance to students seeking counseling or psychological services. The department’s goal is to promote students’ personal well-being and success through a variety of means, including workshops, educational programs and individual and group counseling services.

These services are provided by psychologists, clinical social workers and professional counselors trained to work with college students. Help is available through short-term therapy, peer counseling programs, group therapy sessions and discussion groups. There is even a Dissertation Support Group to support students throughout the challenging process of completing their dissertations.

All currently enrolled WSU students are eligible for these free services. Call or stop by to make an appointment or join a support group. CAPS is located in Room 552, Student Center Building. Call (313) 577-3398 or visit www.caps.wayne.edu.

### New State Requirement for Teacher Certification

The Michigan Department of Education has established a new requirement – teaching candidates certified after July 1, 2004 must have evidence of having successfully completed a course in first aid and cardiopulmonary resuscitation (CPR) before they can teach in Michigan.

Students can fulfill this requirement through the Red Cross or the American Red Cross. Students must complete CPR training before they can teach in Michigan.

### Academic Advising Office Hours

Division of Academic Services advisers are available on a walk-in basis Tuesdays 9 a.m. to 4 p.m. and by appointment other days. To schedule an appointment, call (313) 577-1605 if you’re a graduate student or (313) 577-1601 if you’re an undergraduate student. Division offices are open Monday and Tuesday 8:30 a.m.–6 p.m. and Wednesday through Friday 8:30 a.m. to 5 p.m.

### Morris Hood Jr. II Scholars Program

The Morris Hood Jr. II Pathways to Urban Teachers for Minority Scholars Program was designed to facilitate and enhance the number of minority students who successfully complete the teacher certification program at Wayne State. The project seeks to provide minority teacher candidates with tuition assistance, tutorial support, academic advising and personal skill development through leadership development seminars. Although special emphasis is placed on identifying, recruiting and retaining male minority candidates, women are also encouraged to apply. For more information, contact Kevin Williams in the Division of Academic Services, Room 489, (313) 577-1605 or a62921@wayne.edu.

### Doctoral Qualifying Upcoming Exam Schedule

**February 25-27, 2004** -- for the 2004 winter term
October 20-22, 2004 -- for the 2004 fall term (tentative)

Note: Instructional technology students only begin exams the afternoon of the first testing date. All others begin the exams on the morning of the second testing date. Please contact your adviser for further information and to schedule oral examinations.

### Important Notice to All COE Students Regarding AccessID Activation

Effective immediately, all COE students must activate their WSU e-mail AccessIDs. The college’s Academic Services Division is now using e-mail to transmit important information to all COE students. Those students who do not activate and regularly access their WSU e-mail accounts may miss important announcements that are unavailable through other means.

If you haven’t yet activated your AccessID, go to www.webmail.edu and click on Activate Your AccessID. Then type in your AccessID and the password you received from Computing & Information Technology (C&IT).

If you don’t know your AccessID and password, call C&IT at (313) 577-4778 weekdays between 8 a.m. and 8 p.m. Their Help Desk will provide the information and instruct you on the password reset procedure so that you can use your ID. If an AccessID has not been generated for you, they’ll send you a form to complete and fax back.

Please note that despite recent budget cuts, WSU is continuing to offer free dial-in Internet access for students, faculty and staff through WayneConnect. For more details, please visit http://support.wayne.edu/wayneconnect.

Information and setup instructions for using WayneConnect are also found on the Internet Toolkit. To obtain a Toolkit CD-ROM, show your OneCard at the WSU OneCard office. For more information, go to http://support.wayne.edu/toolkit.

### Teacher Job Placement Fair

**Monday, April 19, 2004**
9 a.m.–4:30 p.m. (Closed 1-2 p.m.)
Student Center Building
WSU campus

For more information, go to www.coe.wayne.edu/as/placement
Michigan Test for Teacher Certification (MTTC)

Remaining dates for MTTC are:
1/10/04, 4/3/04 and 7/10/04

You can now register online for the MTTC at:
http://www.mttc.nesinc.com

Information includes:
- testing requirements
- rules of test participation
- how to register
- preparing for the test
- the day of the test
- test results and score reporting

For more information, call the MTTC offices Monday through Friday, 9 a.m. to 5 p.m. at (433) 256-2876. Their Automated Information System is also available 24-7 at (800) 623-9223, and the Telecommunications Device for the Deaf is available at (433) 256-8032.

Academic Dishonesty and Plagiarism

The College of Education has a “zero tolerance” policy toward plagiarism and other forms of academic dishonesty. Specific examples can be found in the university’s Undergraduate Bulletin, the Undergraduate Student Handbook and the Student Due Process Policy. Every student is responsible for reading these documents, which are available online at www.wayne.edu. Sanctions include course failure, probation and expulsion. Students are advised to make wise decisions about their academic work and ask for instructors’ help when needed. All suspected incidents of academic dishonesty and plagiarism will be taken seriously and investigated under the Student Due Process Policy.

Student Organizations

Each issue of the Student Educator will highlight a student organization in the College of Education. This issue’s featured group is the Black Educators Student Association (BESA).

BESA’s goals include:
• Recruiting minority students into the field of education
• Increasing the number of minority education students graduating from WSU
• Providing academic tutoring and counseling
• Enhancing interest in educational fields and career opportunities
• Fostering professional development and networking with community innovators in the field of education

All undergraduate pre-education students and undergraduate and graduate COE students interested in working with BESA should contact COE undergraduate advisor Keisha Hall at (313) 577-1603 or graduate advisor Shawn Sellers-Clark at (313) 577-8065.

Attention: COE Students with Disabilities

Wayne State University and the College of Education are committed to providing students with disabilities an equal opportunity to benefit from its programs, services and activities. All printed materials are available in alternative formats, which can be obtained from your course instructor. If your disability hinders your successful fulfillment of course requirements, we strongly encourage you to contact WSU’s Educational Accessibility Services to request accommodation. EAS is located in the Undergraduate Library and can be reached at (313) 577-1505 or TDD (313) 577-3365.

Student Support Groups

The College of Education has become aware that some of its students (doctoral students, for example) are interested in establishing online support groups. While networking and mutual support between students is always encouraged, please note that the college does not officially sanction these support groups, their activities or their online content.

Information obtained from these groups does not override the counseling services that students receive from their COE advisors or the official academic policies of the college and university.

2004-2005 Scholarship Information

Scholarship brochure and application materials for the 2004-2005 academic year are posted on the COE website (www.coe.wayne.edu). This year the brochure and application materials will be available only online, and can be downloaded and printed from any computer on or off campus. (COE students may use the COE Education Technology Center computers during posted lab hours.) Students should mail hard copies of their applications to the dean’s office or drop them off in person.

Next year, an online application procedure will be implemented.

Applications and supporting documents are due January 12, 2004. Late or incomplete applications will not be considered. Students who submit incomplete applications will not receive notices from the college, so please plan accordingly. It is the applicant’s responsibility to ensure that applications and supporting documents are submitted by the deadline.

Scholarship recipients are required to attend the scholarship坍. Those who do not attend may jeopardize their award. In 2004, the event will be held on August 3 from 4-6 p.m. in the Community Arts Gallery.

Items of Special Interest

• Information about the COE is available on the college’s website: www.coe.wayne.edu. If you have questions not answered on the website, email askcoe@wayne.edu.
• COE students should visit the Macintosh lab in Room 112 of the Education Building, which now has new Apple iMacs and 21st-century digital tools that allow students to create sophisticated multimedia projects.
• Winter semester master's student orientation takes place December 10, 2003. For more information, call Academic Services at (313) 577-1605.
• Need Financial Aid? Apply online at www.finaid.wayne.edu and link to the university’s FAFSA and OSFA forms. You can submit the forms online, and you can even complete your financial aid exit interview online.
• WSU’s academic calendar is online at http://srlc.wayne.edu/registrar/academiccalendar.
• You’ll find the winter 2004 schedule of classes at http://www.classschedule.wayne.edu.
• You can register through WSU Pipeline at http://pipeline.wayne.edu. Priority registration for winter 2004 is Nov. 3 through Nov. 29.
• The Education Technology Center (ETC) offers many helpful services for COE students. ETC is located in Room 114 of the Education Building (first floor). Call (313) 577-1840 for more information and current hours of operation.

Deadline for COE Admissions

Undergraduates, post-bachelor certification program students (COE undergraduate application) and Master of Arts in Teaching (application to the Graduate School):
• Fall Semester - July 1
• Winter Semester - November 1
• Spring/Summer Semester - March 1
COE Alumni Receive Outstanding Teacher Awards

As if receiving an Outstanding Teacher of the Year award from Wayne County RESA (2002-2003) wasn’t enough, COE alumnus Fred Page also received the Presidential Award for Excellence in Mathematics and Science Teaching (PAEMST) for 2002. A total of 167 educators, chosen from more than 600 national finalists, received this honor, which recognizes the best of the nation’s K-12 mathematics and science teachers. The National Science Foundation (NSF) sponsors the PAEMST program, which was established in 1983. The awards ceremony was held in March at the White House.

Page, who has taught secondary science at Northwestern High School in Detroit since 1969, received his BS in secondary science education (1969) and his MS in biology (1972) from WSU. He attended college on a State of Michigan merit scholarship.

No stranger to awards, in the last few years Page has also received a Michigan Merit Scholarship valued at $75 a semester (15 credit hours). Those 15 credits today will cost an undergraduate more than two thousand dollars. Students had to go to great lengths to find a job in 1953, too. Page remembers the steps necessary to become a Detroit Public Schools teacher. “First, you had to student teach one year at the elementary level and one year at the secondary level,” he said. “Then you went before the Board of Education to get hired. The process included an eight-hour written test, and psychological, physical, hearing and vision exams. It was incredible.” Still, Lugerkvist and his comrades felt it was worth every nerve-wracking moment. “You could get a job anywhere in the U.S. if you were a graduate of Wayne University,” said Evelyn Koxar.

Personality Profile: James M. Ellison

James Ellison, Wayne State University alumnus from the Class of 1980 (MA, Humanistic Psychology) has been elected president of the College of Education Alumni Association. A native of Rocky Mount, North Carolina, Ellison received a bachelor’s degree in Music Education from Florida A&M University in 1968. As a member of the marching band there, he was made section leader of the 33-member trumpet section. In his senior year, his fellow band members elected him president of the marching band. With this accomplishment and other leadership roles in college, Ellison was selected for inclusion in Who’s Who in American Colleges and Universities.

After graduating from Florida A&M Ellison moved to Detroit to be near family members, particularly his two older sisters who were teachers in the Detroit Public Schools. It was his sisters who encouraged him to apply to the school district for a position, which he did. He was first appointed a Vocal Music instructor, but was soon transferred to a high school where he taught Instrumental Music, his first love. In 1980 he became director of bands at Murray Wright High School. In 1989 he was invited by a friend to join the COE Alumni Association Executive Board. Since that time he has continued to serve the college while progressing in his career as dean of students and high school assistant principal, a position he currently holds at Southwestern High School in Detroit. Ellison is also very active in the Michigan Lions Club as a District 11 A-1 chair, where he has been instrumental in providing musically talented students with the opportunity to travel all over the United States, China, Europe and Canada as members of the Michigan Lions All-State Band.
The start of a new school year is always full of great expectations, enthusiasm and anxieties! On behalf of the College of Education (COE) Alumni Association, I greet you and encourage you to participate in at least one, if not all, of the association’s various activities that will be held during the 2003-2004 school year. (See the upcoming events calendar on page 7 for dates.) Establishing scholarships for COE students is just one way the association benefits future teachers. During the scholarship awards ceremony and reception held August 7 in WSU’s Community Arts Gallery, a number of students received scholarships funded from COE Alumni Association member contributions. During the program, Dean Paula Wood enlightened and motivated the students, while challenging them to become great educators. Scholarship recipients, their friends and family gathered at an informal reception and graciously celebrated their fellowship.

The Executive Board would like to thank members of the alumni association who donated during the recent scholarship drive. Your contributions will again help students striving to become educators.

Teachers are always learners. Consequently, we’re never without students. Personally, I believe that the opposite of success is complacency. Let us not become complacent in times of rapid change, technological expansion, world issues, hidden terror and political mishaps. We shall proactively accept the challenges as they’re presented and prepare for those yet to come. Let us not forget that our youth represent our future, and we play a very important role in their development and progress. As the new COE Alumni Association president, I challenge you to get involved and help our students as they strive toward their educational goals.

A Message from COE Education Alumni Association President James M. Ellison
